

PRESS RELEASE

Cisco Live USA 2017 - Las Vegas - World of Solutions

Las Vegas, Nevada, USA – June 26th 2017 – AKIPS are exhibiting within the World of Solutions Exhibition at CiscoLive USA taking place June 26–29, 2017 at the Mandalay Bay Convention Center.

Network Managers are delighted to see an integrated product that monitors 24/7 across the range of communication protocols (i.e. Ping, SNMP, Syslog, Traps, Netflow). AKIPS is engineered to run in a VM and performs without any scale issues. As a Cisco Solutions Partner, AKIPS are proud to present their latest release Network Monitor Software. The software now covers: 4,392 compiled MIBs and 510,841 Objects.

AKIPS CEO Paul Koch “AKIPS provides complete visibility across your network, without any limitations on users, devices, etc. Our low cost subscription offering, packaged with support included, extensive training and RestFul API that uses simple Regex, is a successful business model for AKIPS.

AKIPS is an Integrated Suite of Tools inclusive of: Ping / SNMP monitoring; Netflow; Syslog; SNMP Traps; Alerting; Availability; Configurable Dashboards; Scheduled Reporting; Forwarding / Fanout - Netflow / Syslog / Traps; Infrastructure usage; MAC / IP address locator; Site specific integration; Auto discovery and grouping.

AKIPS is designed for network engineers, yet simple enough for CIOs and non-technical staff. Its intuitive interface allows users to navigate through their metrics to interrogate network performance data. AKIPS does the heavy lifting of data collection, storage, analysis, reporting and alerting that is beyond the capabilities of any other vendor.

AKIPS is an innovative Australian company which engineers, designs and develops network monitoring software focused on user experience, speed, and scalability. AKIPS runs from a single virtual machine on customer premises, automatically discovers wired and wireless networks, identifying and monitoring vital metrics out-of-the-box for a hassle free deployment, using SNMPv3, IPv6, syslog, NetFlow/IPFIX, and more.
