

## PRESS RELEASE

*Cisco Live USA 2017 - Las Vegas - World of Solutions*

**Las Vegas, Nevada, USA – June 28<sup>th</sup> 2017** – AKIPS Network Monitor proves a hit at CiscoLive with crowds gathering to see the magic. Some lucky attendees at the World of Solutions Exhibition at CiscoLive USA walked away with Boomerangs, Koalas and Kangaroos, whilst others were happy just meeting the Cisco Solution Partner Superhero Team behind AKIPS. ([IgnITor](#), [Code Crusader](#), [The Wall](#), [MegaFix](#), and [Major Shift](#)!)

*Imagine* being able to monitor every device, every interface, Syslog, SNMP traps and Netflow on your network, all from a single VM, with an unlimited license.

Thanks to AKIPS, you can monitor your entire network performance, traffic usage, faults, availability and it comes with intelligent alerting.

Some simple metrics to gain an understanding of Scalability

- 1 million+ interfaces, 40k+ network devices
- Every SNMP variable polled every 60 seconds
- Data stored in 1 minute granularity for 3 years
- 1 million+ Syslog messages / minute
- 1 million+ Netflow records / second

All from a single VM, with 1 completely unlimited license. Say goodbye to tiered pricing. You'll be amazed at how cost effective monitoring has become. AKIPS is available via a fixed low cost subscription.

**AKIPS** is an innovative Australian company which engineers, designs and develops network monitoring software focused on user experience, speed, and scalability. AKIPS runs from a single virtual machine on customer premises, automatically discovers wired and wireless networks, identifying and monitoring vital metrics out-of-the-box for a hassle free deployment, using SNMPv3, IPv6, syslog, NetFlow/IPFIX, and more.
